

Rocket Cast 160 - Maker - shownoter

I denne episode diskuterer vi rygter om kommende Xbox-konsoller, en ny Kickstarterkampagne og en ganske særlig søgemaskine. Temaet er Makerkultur og makerteknologier, og vi kommer ind på både det nyligt afviklede Bay Area Maker Faire og vores egen makerhistorik.

Sidst i programmet anbefaler vi en gratis musiktjeneste fra 1940'erne, et mobilspil og to 2-i-1-styresystemer.
