

I denne episode snakker vi om forbrugermessen IFA, Samsungs brandvarme nye telefon og Sonos, som ellers er en sjælden gæst på Rocket Cast.

Ugens tema er 'yndlingswebting' - de ting vi nyder eller bruger mest på nettet (og som ikke er YouTube). Sidst i programmet tipper vi om en hjemmeside med moderne husgeråd, en service der lader dig downloade hjemmesider og noget der gør dig klogere og tilmed er gratis.
